What is Astrology

Astrology is the study of the effects of planetary forces upon man. It is not fortune telling. It is one of the best methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character is destiny. If man can change his character, then man will have changed his destiny. The main uses of astrology are diagnosis of health and sickness, character analysis, vocational guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can rule his stars by exerting his will. If a man decides to flow with the tide of life, then the tendencies indicated in the birth chart will at some time have their effect. The one thing a birth chart does not show is the WILL of the individual and how he may exert it. The matter of exercising free will is left entirely up to the individual. The wise man rules his stars, the fool is ruled by them. Astrology forewarns and being forewarned, a man is thus forearmed to better cope with the struggles of life.

Challenging

8-5-2020

Your communications with others could be strained at the moment. Misunderstandings are possible. Negotiations in business can be difficult. Encourage objective thinking. This transit brings ideas and communications quickly. You will be mentally active, and will need to understand the surface message as well as the underlying meaning. You can make people aware of your ideas and positions, and will be able to get your points across. Square aspects create challenges to be overcome, however, so it will be important to be tactful with others during this time. There could be conflict with others who are just not in tune with your mental speed and energy.

If you follow well-marked roads your trip will be shorter and you won't get lost. Stick to the tried and true and don't experiment for the moment. You'll find support from elements that might otherwise pull away. Don't rock the boat and the boat will get you where you want to go. Traditional wisdom supports you, believe in it.

Challenging

8-5-2020

You, or someone in your environment, may be more moody or irritable than usual now. The smallest thing can set off an emotional reaction. Tread carefully and be aware of the feelings of those around you, especially family members. There is a risk of accident proneness now.

8-5-2020

Often under this transit, people feel quite low and weary, as if the weight of the world is upon them. Now, more than at any other time, you will have to put your nose to the grindstone and just get on with it. Money may be tight, work is a labor, and other people seem intent on blocking your progress. Still, you can have successes, but possibly not in ways that you'd expect. There are rewards for sacrifice, patience and perseverance. Over time you will rise to a new position in life, if you are prepared to put in the long hours now and to persevere. The key to success now is to maintain focus, keep a sense reality and, most importantly, plan all of your moves carefully and strategically. Remember your responsibilities, keep a cool head and do not scatter your energies over too many projects. And, whatever your age, watch your general health, but more particularly if you are older. In certain circumstances, estrangements or separations can occur.

8-5-2020

This can end up being a very intense and powerful time where you may face a great deal of resistance from the outside world. Gradually over time you may have been frustrated or tense over certain areas of your life and this is a time where this energy can and most likely will be released. You may get to a point where the pressure is unbearable and you make a sudden break for freedom which could mean leaving your relationship or bad job without any warning. Tasks of great difficulty are normally accomplished during this time. Studying difficult subjects or working on long term projects that require a lot of effort can be finished during this time Be aware that you must know your own limitations and that if you do work too hard you may end up with physical or mental health issues as a result. It is good to remain as realistic as possible during this time which includes knowing what you will do if you decide to make a break and run. One thing is clear you must make changes at fundamental levels in your life, if you do not you will suffer greater consequences later on in your life and it will much more difficult.

The itch to break away from the normal path and do something radical may have to be resisted but it shouldn't be ignored. Perhaps it's just what's needed, but only if you do it with decisiveness and clarity, as you probably won't be able to take it back. A peek into the unusual can be both entertaining and edifying.

13-5-2020

You feel driven and compelled to achieve a lot now; however there is a real danger of over-estimating your physical drives and running yourself ragged. You may act territorially and aggressively towards others and experience intense power struggles. There is also a danger of accidents or injuries.

Transiting Sun Opposition Natal Moon -

Tension

0.19

15-5-2020

You may have to make an effort to respond to the needs of others during this period, even if you don't feel like it. You will win their respect. This transit can bring out tensions between your personal needs and your public and professional obligations. As the Sun

"illuminates" your emotions, you may feel like you're in a tug-o-war between "me and them". The purpose of this conflict is to help you learn to balance emotions with public or professional duties. If you have been pursuing your public life by covering up your emotions, this transit can be quite noticeable and perhaps frustrating -- your emotional nature will come out one way or another. On the positive side, this can also be a time of high energy and you can achieve a great deal. If your feelings have been suppressed, then tensions can occur in your personal life, too. The lesson to be learned here is how to operate in your daily life by acknowledging and accepting your emotions, and functioning in tune with your "gut" feelings.

Chasing after gain may give you cause to complain, as getting what/ whom you want at the desired where and when just leads to one complication after another. Small aberrations and wanderings from the main highway will get you everything. Explore those byways, there may be gold in them thar' hills. Just off the well-beaten path
